Mr. Gary Flory
Water Compliance Manager
DEQ-VRO
P.O. Box 3000
Harrisonburg, Virginia 22801

Dear Gary,

Attached please find the monthly report for field operations which occurred May 2012. The information submitted has been verified by myself as correctly reported in accordance with Part II.K.

Application rates were calculated using a NMP prepared for each site by a certified planner. Plans will be revised to show actual biosolids application and provided to the farmer. Note that lime application rates have been calculated based on soil pH buffer rather than soil pH. Soil pH was reported on the monthly report form.

Copies of this report have been sent to the DEQ Central, Localities and Generators by email transmittal.

Please feel free to call me should you have any questions.

Sincerely,

Susan Trumbo
Vice President - Technical Manager
